PERSONAL PROJECTS

Student Management System (05/2020 - 07/2020)

- Stores the records of student and teachers data in database and manages it.

Mall customer segmentation (03/2021 - 04/2021)

- To identify the working of a mall by clustering the customers feedback using K-Means of clustering.

Personality Prediction using machine learning (01/2022 - 02/2022)

- In this project, I have developed a personality classifier that uses machine learning models to predict a person's personality based on the 50 recent social media posts per user as input.
- It divides everyone into 16 distinct personalities based on four dimensions, namely: Introversion (I) - Extroversion (E), Intuition (N) - Sensing (S), Thinking (T) - Feeling (F), Judging (J) - Perceiving (P).
